FULL-STACK SOFTWARE ENGINEER

Senior Full Stack Engineer building React and Next.js interfaces, Node.js APIs, and PostgreSQL-backed applications. Connects customer-facing websites with ERP integrations and internal automation, alongside freelance website development.

EXPERIENCE

Senior Full Stack Engineer

MLD (Mountain Land Design, Inc.) | 2024 – Present

- Build and deploy full-stack applications with React, Next.js, Node.js, PostgreSQL, and Prisma on Vercel and Azure.
- Develop Will Call pickup workflows with JWT authentication and role-based access, and delivery automation for confirmations and notifications.
- Integrate ERP and third-party services through APIs and background workers to synchronize data and reduce manual operational work.

Software Engineer

MLD (Mountain Land Design, Inc.) | 2022 – 2024

- Developed web features and API connections supporting customer-facing experiences and internal business workflows.
- Collaborated with internal teams to improve usability and connect software functionality with operational needs.

Website Developer

Freelance | 2020 – Present

- Build responsive client websites with reusable layouts, content management, service pages, and contact forms.
- Implement CMS-driven experiences with Next.js and Sanity, and custom WordPress development with React and PHP.

TECHNICAL STACK

Frontend: TypeScript, JavaScript, React, Next.js, HTML, CSS

Backend & data: Node.js, Express, REST APIs, PostgreSQL, Prisma

Tools & integrations: Git, Sanity, WordPress, PHP, JWT, Twilio
